GREETINGS . . .

DEAR DAHLIA FRIENDS: Again we are pleased to submit our 19th ANNUAL DAHLIA PRICE LIST for 1957. This will be a very short list, indeed, due to an extremely wet season in which we lost more than half of our planting.

LARGE and MEDIUM FLOWERING VARIETIES

	Roots
All-American, SC, (10) Spinal Red with Spanish Orange undertone. -----	\$.50
Annabell, ID, (9) Warm buff and old gold. Try this one. We like it. -----	.40

General Information

TERMS — CASH WITH ORDER, PLEASE.

PRICES ARE NET.

If you live in West Virginia, kindly include consumer's sales tax with your order.

PLEASE NOTE: Figures in parenthesis following the name and type of a variety indicate the size of the bloom as they grow for us. *All Dahlias marked with asterisks before the name are of European or Australian origination. We have imported them from the various countries in recent years.

Orders of \$2.50 or more are postpaid. For less than \$2.50, please add 25c for postage and packing.

PLEASE STATE SHIPPING DATE. All orders will be packed and all roots are guaranteed true to name and in growing condition. If unsatisfactory upon arrival, or if they fail to start in a reasonable time, return at once and they will be replaced. However, very early shipments are sent at customer's risk of freezing, drying or rotting. We are not responsible in any case for more than the purchase price.

May we suggest that if you are ordering more than three roots of a variety, will you kindly write us before sending in your order, to ascertain if we have them in stock. Also, second choice is recommended. Almost every year there is a shortage of certain varieties.

WE SUGGEST THAT YOU SEND IN YOUR ORDER FOR DAHLIAS EARLY. All orders will be filled in rotation. We shall be glad to reserve your roots for you, and ship at any time that you desire.

Roots to be mailed March 1st to June 1st.

ONE FREE ROOT OF OUR SELECTION GIVEN WITH EACH ROOT ORDER. With a few exceptions, this has always been our policy, and we are glad to do it. This does not apply to plant or wholesale orders.

Our gardens have been state inspected and have been found to be free of dangerously injurious insects and plant diseases.

SPRAY YOUR DAHLIAS FOR BEST RESULTS. Leafhoppers are the principal offenders in our locality. Try spraying with D.D.T. or Methoxychlor every ten days after they come up for awhile, and see if you do not have better results with your dahlias. We used Methoxychlor for the past several seasons to control both leafhoppers and Japanese beetle, with excellent results. It also will control the Mexican bean beetle. It is much less poisonous than D.D.T. Follow instructions on the can.

To all we extend a cordial invitation to visit our gardens during the growing season and blooming period. The dahlias are usually at their best the first part of September.

Our gardens are located five miles east of Fairmont, one mile off State Route No. 73, on the Winfield Road at the village of Winfield.
